OBJECTIVE

Computer Science student (UFN, 6th semester) seeking opportunities in Back-end Development, Databases, or Digital Security, with a solid foundation in programming logic, software architecture, and relational databases.

SKILLS

Development: Java, C, C++, C#, JavaScript, HTML
Databases: MySQL, SQL Server, relational modeling
Security & Interests: Blue Team, digital forensics
Tools: Git, Eclipse, IntelliJ, NetBeans, VS Code

PROFESSIONAL EXPERIENCE

Apple Technical Assistant — iHelpU Santa Maria	2026
<i>Apple technical support, hardware/software diagnostics, and customer service.</i>	
Undergraduate Research Fellow — ITEC Park — UFN Technology Park	2025–2026
<i>Applied research and technological prototyping: 3D modeling/printing, laser cutting, and Arduino.</i>	
Probit Research Fellow — FAPERGS	2024–2025
<i>Research and development of biomaterials for health, with electrospinning and process optimization.</i>	
Administrative Intern — São Sepé Municipal City Council	2022
<i>Document organization, administrative support, and public assistance.</i>	

PROJECTS

Dubbio — movie and series decision-making platform (React, TypeScript, TMDB API).
Expense Tracking API — residential financial management system (ASP.NET Core, React).
Collection Management — **Museu Treze de Maio** — cataloging of historical and bibliographic collections.

EDUCATION

B.Sc. in Computer Science (in progress) — Universidade Franciscana (UFN)	6th semester
High School Diploma — Colégio Estadual São Sepé (CESS)	2022

ADDITIONAL TRAINING

Cybersecurity (50h, 2025) · Robotics with Arduino (25h, 2024) · 3D Bioprinting (4h, 2024) · Python Pandas (4h, 2024) · Basic/Intermediate English (50h, 2022–23)

LANGUAGES

Portuguese (native) · English (advanced) · Spanish (intermediate)
